

## POLICY ON DEVELOPMENT OF PHILOSOPHY OF EDUCATION

The Board's philosophy of education shall give direction to the educational program and daily operations of the district. The philosophy will allow for that flexibility necessary in an ever-changing society. Furthermore, the philosophy will provide general criteria by which to assess the district's program and operations.

Each year, the Board of Education and the superintendent will evaluate the district's philosophy of education. Suggestions from both staff and community will be considered.

The Board will revise or confirm the existing philosophy or write a new philosophy. The Board will then present its recommendation regarding a district philosophy of education. Prior to the new school year, the philosophy will be placed on the agenda for the first reading and public responses. After a second reading, the Board will adopt or re-adopt a philosophy of education.

All building and course of study philosophies will reflect and extend the Board's philosophy. The superintendent will disseminate the Board's philosophy of education to all staff members and have it published in all handbooks.
