

REVENUES FROM TAX SOURCES

In an attempt to provide the best education possible within the financial resources available, the board will:

1. Request that voters approve adequate local funds for the operation of the school district. The amount of the individual levies will be determined as the time of the initial request or at the time of a request for renewal to yield sufficient revenue for the operating expenses of the school system.
2. Accept all available state funds to which the district is entitled by law or through regulations of state board of education.
3. Accept all federal funds that are available providing that there is specific need for them and that the required matching funds are available.
