

BIDDING REQUIREMENTS

Contracts for construction or demolition of buildings or for any improvements or repairs that exceed \$50,000.00 are let only after bids are solicited and received in compliance with law. However, if the Board enters into a shared savings contract for energy conservation measures, competitive bidding is not required. The Board may also enter into an installment payment contract for the purchase and installation of energy conservation measures and competitive bidding does not need to be utilized if two-thirds of the entire Board adopts a resolution stating that competitive bidding does not apply to the project.

If feasible, all purchases over \$10,000.00 and not otherwise subject to required federal or state bidding requirements will be based on price quotations submitted by at least three vendors. These quotations are treated confidentially until the deadline for filing is past; thereafter, they are public information.

The Superintendent assembles the proper specifications and makes the necessary arrangements for public bidding and price quotations. The Treasurer receives the bids and price quotations and records them. The Superintendent makes his/her recommendations to the Board. Upon approval by the Board, he/she processes purchase orders to those bidders awarded contracts and notifies the other bidders of the results of the bidding.

Purchases made through the use of federal funds are made in compliance with the requirements of State and Federal law and, District policies and procedures including the applicable bidding requirements.
