

## FACILITIES PLANNING

The Board of Education is responsible for the regular operation and orderly development of its physical plant. For this reason, the Board will concern itself with both short and long-range planning as it relates to the properties of the school district.

The board's building program when needed will be designed to provide adequate facilities to conduct educational programs for all students residing in the district. The building program will be based upon specific board policies that have been and will continue to be modified to conform to changes in the curriculum, availability of construction funds, changes in enrollments and the results of annual evaluation of facilities. The Board will establish priorities using these and other relevant factors.
