

EARLY GRADUATION

Interested students must apply for the early graduation program by February of their tenth grade year. In order to graduate from Arlington High School in the early graduation program, the student must complete twenty-two credits as required for graduation from Arlington High School – fifteen required Arlington High School classes and seven units of electives. If these credits cannot be accomplished through the master schedule of the high school, they must be obtained through post-secondary and correspondence courses. Upon completion of the above scheduling process, the high school IAT Committee will verify and designate the student as a candidate for early graduation.
