

## RELATIONS WITH OTHER SCHOOLS AND EDUCATIONAL INSTITUTIONS

The board will cooperate with other districts and institutions of higher learning for such purposes as:

- Seeking solutions to educational problems of common concern.
- Offering supporting services of high quality to our students.
- Acquiring federal and state grants.
- Promoting local school system involvement in regional and state decision making.
- Placement of student teachers.

This cooperation may extend to research, providing transportation for children to special schools and hospitals, coordination of curriculum, exchange of information and data, construction of facilities which may be effectively used on a cooperative purchasing, and the coordination of school calendars and activities.

Before joining in any cooperative efforts the board wants to be certain that in all instances the best interests of the district's students will be served. Therefore the Superintendent will suggest cooperative ventures only after investigating them thoroughly. Furthermore the superintendent will provide the board with supportive documentation prior to the time the board will be asked to act.
